

Profile

I am a web developer with 6 years of experience. I would classify myself as a mid-level developer looking to take the steps necessary to build towards a senior role. Having worked in startup environments, I've acquired a wide range of skills. My primary focus, however is creating clean, S.O.L.I.D., maintainable PHP code.

Professional Experience

Lead Developer & Architect **Every Merchant Network, Inc.**

Dec 2012 - Present | Cherry Hill, NJ

- Develop & maintain internal web applications.
- Server management for both internal and client websites.
- Build sites for clients using various CMS/frameworks.
- Financial reporting system design for large client. Built REST API for interaction between other systems.

Web Developer **Freelance**

Nov 2009 - Feb 2013

- Design & develop basic websites for clients using either Drupal CMS or static HTML.
- Created an online ordering system for a chinese restaurant.
- Built a few native android apps.
